

30-Day Personal Brand Content Calendar

Build Authority Through Actionable Insights. Not Status Updates.

Platform: LinkedIn | Frequency: 3-4 posts/week | Duration: 30 days

How to Use This Calendar

- Fill in your niche in the [] brackets of each prompt before you start posting.
- Swap any prompt with a real experience from your work that week. Personal beats generic.
- Track your metrics in Table 4 at the end. Double down on what gets saves and comments.
- You don't have to post every day. The shaded rows are your priority posts. Others are optional.

TABLE 3: WEEKLY POST-TYPE REFERENCE

Why each day of the week has a specific post type, backed by LinkedIn engagement data.

DAY OF WEEK	POST TYPE	FORMAT	WHY IT WORKS
MONDAY	Insight / Opinion	Text (150-300 words)	Sets your authority tone for the week. Algorithms reward early-week engagement spikes. Strong opinions get more comments.
WEDNESDAY	Carousel / How-To	PDF Document (8-12 slides)	Highest engagement format on LinkedIn: 21-24% average engagement vs 6% for text. People save carousels. Saves signal quality to the algorithm.
THURSDAY	Story / Human Post	Text or short video	Mid-week story posts humanise your brand. Vulnerability-based content increases trust and shareability significantly.
FRIDAY	Engagement / CTA	Text with question or poll	End-of-week posts drive comments that carry over the weekend. Questions and polls get 2-3x more comments than statements.
OPTIONAL 5th	Case Study / Proof	Carousel or long-form text	Social proof posts (results, testimonials, wins) build credibility. Post when you have a real result to share, not on a fixed day.
